The Career Path Less Taken

Is a program that fits in to our student leadership. It is FREE without limits—meaning not a temporary free program. Plus, there is opportunity for receiving cash awards. Might not have time in curriculum but might be able to get some ideas with their resources or collaborate with another program. Sign up as a teacher and it gives a yearly outline or semester. I do have them downloaded if you would like to look at them without signing up.

On the home page, scroll down to the Mental Health section. If you click on topics, there are some good resources. I am drawn to their Social Emotional Learning.

If you click on the videos, you might be turned off at first because it seems more elementary. Click on the "MORE" at the bottom. Lots to learn and could possibly relate to your employability curriculum. At the very least, might give some ideas/strategies for helping reaching our students, our own children/grandchildren.

Click on TOPIC then ALL TOPICS for an overview. Under LESSON PLANS there are some topics that are universal.

Book Suggestions:

Hopefully you read *Little Fires Everywhere*. If you're like me, you can't wait for Hulu to release the final episodes!

This Week's Suggestion:

Where the Crawdads Sing by Delia Owens

The "Marsh Girl" haunts Barkley Cove, a quiet town on the North Carolina coast. When handsome Chase Andrews is found dead, the locals immediately suspect Kya Clark, the so-called Marsh Girl. But Kya is not what they say. She is sensitive and intelligent, she has survived for years alone in the marsh that she calls home, finding friends in the gulls and lessons in the sand. Then the time comes when she yearns for human touch. When two young men from town become intrigued by her wild beauty, Kya opens herself to a new life - until the unthinkable happens. Murder – you think?

They are teasing that *Where the Crawdads Sing* will soon be a movie! Available with your library card through eaudio, on your Kindle, or from Amazon for \$9.59.

Next Week: *On the Come Up* by Angie Thomas

Don't Miss this one: Little Fires Everywhere by Celeste Ng

This story takes place in our very own suburb of Shaker Heights! "To say I love this book is an understatement. It's a deep psychological mystery about the power of motherhood, the intensity of teenage love, and the danger of perfection. It moved me to tears." --Reese Witherspoon

After you've read the book, treat yourself to the television eight-episode series Starring Reese Witherspoon and Kerry Washington just released on Hulu. Don't have Hulu? You can get free one-month access!
