Fred Patterson

Garfield Heights District

Fred Patterson is a senior at Garfield Heights High School and is enrolled in CVCC's Heating & Air Conditioning program instructed by Mr. Schoeffler. Fred initially joined CVCC's program due to it being an interest of his that he wanted to learn more about. So far, Fred has gotten a lot out of the program. He has enjoyed the various projects done in class, specifically those involving sheet metal. The memorization component of the class has been challenging; however, Fred has done a great job keeping up with it. Fred is thankful to CVCC for giving him the opportunity to make new friends from surrounding districts. He also has enjoyed the various field trips to job sites he has gotten to experience while in the Heating & Air Conditioning program.

Fred is currently working at Frank & Fric, Inc., a local company where he is a sheet metal fabricator. He is in the Sheet Metal Unions School to Apprenticeship Program with direct entry in to the union upon graduation. In Fred's free time, he enjoys going to the gym, car shows, trying new restaurants, bowling and go-kart racing. After graduation, Fred plans to become a journeyman in the local union; he would eventually like to get involved in sales and/or marketing as well. Best of luck Fred, keep up the great work!
