

Bayne Kroft

Nordonia Hills District

Bayne Kroft is a senior at Nordonia High School and is enrolled in CVCC's Power Equipment Technology (PET) program instructed by Mr. Koenig. Bayne has been working on engines for years due to his involvement in racing dirt bikes; he felt this program would be a great fit for him. His favorite part of the program has been building and working on a V8 motor. The most challenging component of the program is the customer service skills needed when assisting others; however, it has been a good learning experience overall. Bayne appreciates the hands-on component of the program as well as the quality learning environment CVCC provides students.

In Bayne's free time, he is involved in racing dirt bikes. Being a huge passion of his, Bayne travels with his dad to races on a local, even national level and competes. After graduation, Bayne plans on going to a trade school that specializes in welding as he hopes to become a professional welder. Best of luck in all that you do, Bayne!
