

Student Connection

December 2022

Joshua Schiopota **Twinsburg District**

Joshua “Josh” Schiopota is a senior at Twinsburg High School and is enrolled in CVCC’s Programming & Software Development program instructed by Ms. Little. After breaking his first computer, Josh was compelled to fix it, which is what ignited his passion for the field. Josh has really enjoyed connecting with other students within his program. The networking opportunities he has had also have been very beneficial. Josh appreciates the overall environment CVCC provides students, specifically the independence and diversity components. Josh has his own business called Heritage One Resources, which is a marketing and hosting site for other websites.

Josh is also involved in pole vaulting at Twinsburg High School as well as at a local club. He hopes to be able to break the school record this year. In his free time, Josh enjoys gaming and working on developing his social and technical skills. Josh plans to go to Kent State University and study Cyber Security. He hopes to continue growing his business and provide technical services to small businesses. Best of luck Josh, keep up the exceptional work!
