

Christian Clark

October 2022

Brecksville-Broadview Heights District

Christian Clark is a junior from Brecksville-Broadview Heights High School and is enrolled in CVCC's Power Equipment Technology (PET) program, instructed by Mr. Koenig. Christian chose this program because he has always had an interest in trains and how to repair them. He felt this program was a way to learn more about the area and get a head start in the field. Christian appreciates the freedom CVCC provides its students. He has independence when working on projects, and enjoys the variety of elements he is able to work on in the program. Christian is thankful for the nontraditional environment CVCC provides students and feels his creativity is encouraged daily.

Outside of academics, Christian has been involved in Taekwondo for 10 years, he also enjoys photography. Looking ahead, Christian hopes to be a locomotive engineer. Christian expressed that being involved in the train industry may not be as accessible due to advancements in technology; however, he knows he will always have the knowledge acquired in CVCC's PET program to put towards having a thriving career in a similar field. Best of luck in all you do Christian!
