Torrell Davis

Garfield Heights District

Torrell Davis is a senior at Garfield Heights High School and is enrolled in CVCC's Graphic Imaging Technology (GIT) program instructed by Mr. Ruebensaal. Torrell enrolled in this program because he was interested in learning more about graphic design, as well as creating posters and other creative materials. Torrell has really enjoyed learning all the knowledge Mr. Ruebensaal provides. Torrell notes, "Mr. Ruebensaal has taught me so much, it has made me love the field even more!" At times, it can be hard to troubleshoot certain machines within the program, as specific problems that arise can be difficult to navigate; however, those challenges have been a good learning experience.

Overall, Torrell appreciates the positive atmosphere CVCC provides students. He has learned great work ethic skills, like how to work in a team. He has also gotten to meet new friends. The GIT program has continued to spark even more passion in Torrell, as he enjoys working on his own designs outside of the classroom. After graduation, Torrell would like to pursue college and is looking into the engineering field, as well as further education in the graphics area. In the future, Torrell would love to use the skills he has learned at CVCC to create his own clothing brand. What wonderful goals; CVCC is thrilled to be a part of your journey!
