Zach Miller

Twinsburg District

Zach Miller is a senior at Twinsburg High School and is enrolled in CVCC's Engineering Technology program instructed by Mr. Pinkava. Having an interest in the engineering field, Zach enrolled in the program to get industry skills and experience. He has enjoyed the hands-on component of the program, specifically building circuits. Zach explains that some of the mathematical components of the class can be rigorous, however are necessary. Zach enjoys the friendly atmosphere CVCC provides. He also appreciates the smaller class sizes available as well, as he is able to create quality relationships with his fellow classmates. Last spring, Zach participated in the SkillsUSA competition and won the silver medal with his team. He also participated in an Engineering Camp at Purdue University over the summer.

Zach is involved in the Great Expectations Show Choir at Twinsburg High School and also works at Fun 'N' Stuff. In his free time, Zach enjoys playing videogames, reading, and spending time with friends. Looking ahead, Zach plans to attend college and acquire a master's degree in engineering. He hopes to work for a well-known company, or possibly have his own one day. He would also like to help the global climate crisis throughout his career. What exceptional goals; keep up the incredible work Zach!
