Brody Bard Revere

Brody Bard is a junior at Revere High School and is enrolled in CVCC's Power Equipment Technology (PET) program instructed by Matthew Harding. Brody heard great things about CVCC and the PET program from his cousin who is a current senior in the program; Brody's cousin encouraged him to join the program knowing that Brody had an interest in the subject matter and was looking to gain hands-on skills and experience on the things he was doing in class. Brody works at his family's farm, his job and passion, and figured that the PET program would be a great fit and investment into furthering his career at the farm.

*"Brody goes above and beyond in class, is always involved and engaged, volunteers consistently, and performs well on assignments. He's an all around star student."
-Matthew Harding, Power Equipment Technology Instructor*

After graduation, Brody plans on continuing to work for his family's farm (Luther's Farm Market) and hopes to dive further into diesel mechanics and agricultural mechanics.

"I have learned so much already and have now seen how different it is working in the field versus working on my own which has been so helpful." -Brody Bard

Outside of academics, Brody is on the swim and dive team at his high school and enjoys playing and watching football. Keep up the great work, Brody!
