Blake Allen

Nordonia Hills

Blake Allen is a junior at Nordonia Hills High School and is enrolled in CVCC's Power Equipment Technology program instructed by Matthew Harding. Blake decided to attend CVCC after he heard some of his teammates talking highly about the school and witnessing those teammates graduate and obtain a job in the workforce right away. Blake was intrigued by the Power Equipment program because of the hands-on skills with engines and the fact that there is so much to explore within the program beyond engines.

"Blake is an outstanding student and performs well on assignments. He volunteered to be our class treasurer, and he gets along with everyone." -Matthew Harding, Power Equipment Technology Instructor

After graduation, Blake hopes to obtain a job at a diesel shop and continue improving his skills. His advice to current and future students is to keep working hard and don't be intimidated by the workload. It'll all be worth it!

"Mr. Harding is such a great teacher. He really does his best to give each of us within the program one-on-one learning, making sure to get around to every student, each class. We are always learning something new. I really enjoy class." -Blake Allen

Outside of academics, Blake is highly involved in Football and works at Penn Station. In his free time, he enjoys playing video games. Keep up the great work, Blake!
