Eric Thiel

Brecksville-Broadview Heights

Eric Thiel is a junior at Brecksville-Broadview Heights High School and is enrolled in CVCC's Architectural and Mechanical Design (AMD) program instructed by Erik Ward. Eric has always had a passion for designing and building things, and after visiting CVCC on a field trip, the AMD program was a no-brainer to Eric.

Eric said he enjoys all aspects of the AMD program, and has a hard time deciding what has been his favorite project in class this year. However, he really enjoys reading, updating, and creating blueprints!

"I have learned so much during my time at CVCC thus far and I love how the AMD course is set up. CVCC has such a welcoming environment that has truly been a breath of fresh air. If you're a student debating whether or not to attend CVCC, go for it if there's a program you are interested in! Attending CVCC is a great way to use your time and get ahead on your career, especially if you're not planning on going to college." -Eric Thiel

After graduation, Eric plans to attend college to major in architecture and hopes to discover more of his interests from there. Outside of academics, Eric is involved in bowling, track, and marching band at Brecksville-Broadview Heights High School. Keep up the amazing work, Eric!
