Ava Sucato

Revere

Ava Sucato is a junior at Revere High School and is enrolled in CVCC's Architectural and Mechanical Design (AMD) program instructed by Erik Ward. Ava has always had an interest in architecture and interior design, so as soon as she found out CVCC offered an AMD program, it was a no-brainer. Being a visual learner, Ava really appreciates the hands-on learning at CVCC; Ava often forgets she is at school because she is having fun. Her favorite project in class so far has been making a mallet as she really enjoys designing and building items from scratch.

After graduation, Ava plans to attend college to major in architecture and also hopes to dive into real estate. Her advice to future students is to "go for it" if there is a program that peaks your interest; there is a grace period to leave or change programs, so try it because you have nothing to lose and you may end up loving it.

"Mr. Ward is huge on critical thinking and often tells us to 'figure it out' which frustrated me at first, but I have learned to appreciate it so much. He pushes all of his students to think for themselves which I have seen transfer into my school work and even my everyday life. My time at CVCC hasn't felt like school; I genuinely enjoy it here and have fun." -Ava Sucato

Outside of academics, Ava is on the golf team at Revere High School and works at Tiffany's Bakery. Keep up the great work, Ava!
