Quentin Williams

Twinsburg

Quentin Williams is a senior at Twinsburg High School and is enrolled in CVCC's Graphic Imaging program instructed by Patrick Ruebensaal. Quentin started out in the Computer Networking Academy, but eventually realized that the program wasn't for him. While exploring other program options, he talked to Mr. Ruebensaal and after physically seeing what his students did in class, it quickly became clear to Quentin that the Graphic Imaging program was where he was supposed to be. Quentin's favorite experience in class so far has been learning how to swap from screen printing to the EPSON printer; it's been the most rewarding and fun process in his opinion. Quentin is currently working on shirts for our SkillsUSA organization, and has also ranked this project as one of his favorites.

"The decision to attend CVCC is one of the best decisions I've ever made. The students here want to put in the work and it's been awesome meeting so many people from other school districts. Mr. Ruebensaal is one of my biggest supporters. He believes in me every day, and always reminds me that I'm capable. I can't put into words the impact he's had on me. I also want to thank Mrs. Schultz and Mr. Averre for being so helpful and supportive during my transition from Computer Networking to Graphic Imaging." -Quentin Williams

After graduation, Quentin will be attending Ferris State to major in Graphic Media Management! Eventually, he hopes to assist his brother with his clothing company; creating graphics, printing, marketing the brand, etc.

Outside of academics, Quentin participates weekly in a Dungeons & Dragons club at his high school and enjoys spending time with his friends. Keep up the great work, Quentin!
