Jessica Caban

Class of 2024

Jessica Caban successfully completed the Phlebotomy program as part of CVCC's Adult Diploma Program in February 2024. Despite having worked as an STNA for 18 years, Jessica aspired to broaden her career prospects by overcoming the obstacle of lacking a high school diploma.

The completion of the program not only fulfilled this requirement but also instilled a newfound confidence in Jessica, proving to her that she possesses the capability to achieve more. Her encouragement to those contemplating the Adult Diploma Program is to disregard external opinions, emphasizing that pursuing and achieving one's goals is worthwhile and never too late.

"I am incredibly grateful to CVCC for making this entire process possible, especially as a busy mom. Initially, the small size of my phlebotomy class seemed intimidating, but the instructors and staff were incredibly welcoming and maintained an excellent teaching pace. I take pride in setting and achieving my goal. Joining the Adult Diploma Program required a lifestyle change and wasn't easy, but with dedication and hard work, it's possible, and CVCC supports you throughout. In March 2024, I'll be embarking on my journey as a phlebotomist at the Cleveland Clinic—a job I aspired to have at the hospital of my choice. I couldn't be more excited about this opportunity. Thank you, CVCC, for being a crucial part of my success, and I appreciate your support on this remarkable journey." -Jessica Caban

Congratulations, Jessica! CVCC wishes you all the best in your new role at the Cleveland Clinic, and takes great pride in your achievements.
