Logan Welkley

Brecksville-Broadview Heights

Logan Welkley, a student at Brecksville-Broadview Heights High School, is a proud member of CVCC's Transition-to-Work program, taught by Mindy Wracher. When the opportunity to attend CVCC came along, Logan was thrilled for the chance to make new friends and strengthen both her employability and social skills.

This year, Logan has really enjoyed her work experiences at Winking Lizard Tavern where she helped clean and set tables—and at Innovation Food Services, where she assisted with organizing and packing boxes of food for community members in need. "I really enjoy the food and restaurant environment. It's fast-paced and keeps you busy, which I love."

Logan dreams of a career that allows her to help others, whether that means working with kids or training animals. "I have three dogs at home and I just love animals. I want to start volunteering at an animal shelter when I can find the time. I also love kids. I'll be happy as long as I have a job where I'm helping others—that's all I want to do." She describes her class environment as upbeat and engaging. "Class is always so fun, never boring—especially when we get to play UNO, specifically the Show 'Em No Mercy version. I love some friendly competition!" Logan is excited to participate in DECA this year and continue building her workplace skills. Her advice: "Take advantage of the opportunity to attend CVCC if it's presented to you. Everyone is so nice and wants to help you succeed."

Outside of school, Logan is always seeking ways to serve her community through fundraisers, volunteering, and helping wherever she's needed. She frequently assists the Brecksville-Broadview Heights High School girls basketball team—filling water bottles, helping the coach, and supporting the team in any way she can. Logan is a big basketball fan, so helping and being part of the team in a way has been an absolute blast for her. She is also a tremendous help in her school's special education class, offering encouragement and support to her peers with significant disabilities. Keep up the amazing work, Logan! We can't wait to see the positive impact you'll continue to make.
