# Student Connection

CUYAHOGA VALLEY CAREER CENTER

## Jadon Washington Twinsburg

Jadon Washington is a student with OHDE, formerly attending Twinsburg City Schools, and is currently enrolled in the Electrical Systems program at CVCC under the instruction of Joe McNamee. Jadon's connection to CVCC runs in the family—his mom attended the Cosmetology program, and his aunt attended the Dental Assisting program. When Jadon learned about the opportunity to attend CVCC, he didn't hesitate. After hearing positive feedback from family and friends who attended, and with friends already working in the electrical field, Electrical Systems quickly became his first choice.

"Since I do school online, CVCC felt like the perfect chance to try something new," Jadon said. "It gets me out of the house, gives me hands-on learning that I really enjoy, and helps prepare me for the possibility of getting a job right after high school." Jadon especially appreciates the support he receives in class. "I really like Mr. McNamee's teaching style. No matter how many times I ask a question, he takes the time to explain it until I fully understand. That really makes a difference. I can't even choose a favorite experience so far—it's all been great, and the more I learn, the more I enjoy the program."

As he continues his journey at CVCC, Jadon is focused on gaining as much knowledge as possible and taking advantage of work-based learning and apprenticeship opportunities. "Jadon is a hardworking and dependable student in the Electrical Systems program," said Mr. McNamee. "His determination, consistency, and willingness to help others, both in and outside of class, are exactly the qualities we look for in future members of the workforce."

While Jadon is still exploring his plans after high school, he is strongly considering a future in the electrical field and says he's enjoying every part of the experience so far. Outside of school, he enjoys spending time with friends, watching movies, and playing video games. His advice to others considering CVCC is simple: "You're going to love it here. This is an amazing place, and I couldn't recommend the Electrical Systems program enough. I'd be here full-time if I could. This is an opportunity you don't want to miss." Keep up the great work, Jadon! We're excited to see what the future holds for you.
