Student Connection

CUYAHOGA VALLEY CAREER CENTER

Jack Henderson

Nordonia Hills

Jack Henderson is a student at Nordonia High School enrolled in CVCC's Digital Design program, instructed by Monica Salopeck. After touring CVCC, Jack was drawn to the environment and the way students carried themselves. He knew he wanted to take advantage of the opportunity and is glad he did! One of Jack's favorite aspects of the program has been learning photography skills this year, which have even inspired him to take pictures of birds and other subjects in his free time. He also enjoys the creative, relaxed classroom environment and collaborating with students from other school districts, which he feels has strengthened his teamwork skills. "My mind is always racing with a million ideas. I love being creative, so I've enjoyed this program and how much freedom we have to create our own unique things with each project." Jack has also enjoyed getting involved in SkillsUSA last year.

While playing in the NHL would be a dream come true, Jack hopes to pursue a career in marketing, with a particular interest in sports marketing and the possibility of working with the NHL one day. Outside of CVCC, he plays hockey and golf at Nordonia High School. He plans to make the most of his remaining time at CVCC by earning as many Adobe Creative Suite certifications as possible (Photoshop, Illustrator and InDesign), to prepare for success after graduation. Jack also spent part of his summer working as a custodian at CVCC, helping ensure the building was clean and ready for the new school year. His advice to future CVCC students? "Make the leap to attend CVCC. We're all in it together when it comes to trying this experience out, and everyone here wants you to succeed." Keep up the great work, Jack! We look forward to seeing where your creativity takes you.
