CUYAHOGA VALLEY CAREER CENTER

Tania Carter

Twinsburg

Tania Carter, a student at Twinsburg High School, is enrolled in CVCC's Health Careers program, instructed by Ms. Stanis. Her passion for healthcare stems from a natural desire to help others and a comfort in medical settings, which have made the field a natural fit for her interests and aspirations. Throughout her time in the Health Careers program, Tania has developed a particular interest in women's healthcare and hopes to one day become an OB/GYN Nurse Practitioner. She has become increasingly aware of the gaps in education and attention surrounding women's health, an interest that grew even stronger while studying anatomy. These experiences have inspired her to pursue a career where she can advocate for women's health and make a meaningful difference in the lives of others.

"Tania goes above and beyond to get involved in her program and is always looking to see what more she can do. She participated in HOSA last year and represented well, not only for herself but for Twinsburg," shared one of her instructors.

CVCC's hands-on learning environment has also played an important role in Tania's educational experience. As a visual learner, she appreciates the opportunity to learn by doing and apply what she learns in real-world settings, especially when developing skills that will prepare her for a future in healthcare. Tania is looking forward to another year of participating in HOSA – Future Health Professionals. Last year, she competed in Prepared Speaking, earning fourth place at the regional competition and third place at the state competition. Building on that experience, she is considering competing in Home Health Aide this year. Another exciting milestone ahead is earning her Certified Nursing Assistant (CNA) credential. After graduation, Tania hopes to work as a CNA in a hospital, gaining valuable patient-care experience as she continues working toward her long-term career goals.

Beyond the classroom, Tania is an active leader in both her high school and CVCC communities. She serves as president of the Black History Club at Twinsburg High School, participates in the Minority Student Union, and is a Tiger Ambassador. At CVCC, she serves as vice president of the National Technical Honor Society (NTHS) and is also a member of Twinsburg's National Honor Society (NHS). When she isn't busy with school and extracurricular activities, Tania enjoys listening to music, exploring pottery and ceramics, and spending time with her family, especially her sister and nephew. After graduation, Tania plans to attend college before continuing on to nursing school. With a clear sense of purpose and a passion for helping others, she is working toward a future where she can advocate for women's health and make a lasting impact in healthcare. Keep up the great work, Tania! We look forward to seeing all you accomplish.
